## Legally binding declaration

1. The IKA®-machine resp. part has been carefully cleaned and freed from remaining material/substances before return to IKA®.
2. As far as this was possible, we herewith declare, that the remaining material/substances have no harmful or risky influence on the IKA® personnel handling with the machine.
3. A further cleaning by IKA® with usual cleaning agents is harmless and cannot cause any harmful consequence (e.g. chemical reactions).
4. The declaration concerning item 2 and 3 is given acc. to the best of our knowledge and belief and under consideration of our obligation to care.
5. A second signature is given by the person responsible for the condition of the goods immediately prior to return delivery.
6. The client confirms, that the returned goods do not represent any danger by bacteriological, virological, chemical or radioactive contamination.
7. The undersigned is authorized to give such declaration in the name of the represented company.
8. The client is aware of the fact that he is liable towards the consignee for any damages caused by incomplete or incorrect information.

## Packaging instructions - Process equipments

Please complete the Decontamination certificate and sign it.

Pack the machine into a paperboard container or a wooden box, depending on the size of the machine and add a copy of the Decontamination certificate.

Put the delivery note and the Decontamination certificate into a protective bag and fix it together with the sticker "No danger" on the outside of the package where it can easily be seen.

Die in dieser Verpackung enthaltene Maschine wurde vor Versand gereinigt und ist frei von jeglichen bakteriologischen, virologischen, chemischen oder radioaktiven Verunreinigungen.

The machine in this package has been cleaned before dispatch and does not mean any danger due to bacteriological, virological, chemical or radioactive contamination.

**Unbedenklichkeitserklärung beiliegend**

**Decontamination certificate enclosed**
